OUR VISION

Our vision for Mugulbu ward is for development to come our way. We believe that soon, Mugulbu will have improved in its socio-economic activities and social amenities. This shall include Accessible roads, clean pipe-borne water, electricity power supply, telecommunication network, standard classrooms for our children and adequate security. This will ultimately improve the standard of living of our people.

MESSAGE FROM THE VILLAGE HEAD

ARDO MUSA A. KAWU

It's with great pleasure and joy I welcome you all to this historic community. I've held this position for the past 30 years; a position I took over after my father and has been in the family for more than 80 years. Mugulbu is my place of birth and I grew up here.

Despite the diversity in our culture and religion, we have lived together in harmony for many years. Our people are characteristically hospitable and respectful as respect for leaders and elders is important in our communities. Language is a symbol of our culture and tradition. Although some of our cultures have been wiped out by religion, we still practice a few of them to date. Some of the cultural activities practiced today are dancing and Horse racing during the time of festivals. Some types of dishes are a representation of our culture; dishes like taspa, follere and kuka.

Although Mugulbu ward have developed quite a bit but not to the extent that we expect. We used to have classrooms and clinics made from mud but today most of these buildings have been reconstructed into modern structures, our clinics can now admit more patients even from other villages around the ward and our children can now learn in proper classrooms rather than under tree shades. Furthermore, I remember growing up here in Mugulbu ward as a village boy; playing and dancing with my peers of which sometimes we gather around and tell stories. One could easily assist the other in cultivating their farm or building a hut or house because back then life in Mugulbu ward was much safer. However, one can say that the way of life today is much easier than it was in the past. Farming activities need not be difficult as modernized farm inputs like machine tools, herbicides and improved seeds can be applied. We can now travel from one point to another using a motorbike or vehicle which saves time and energy.
At the time of the Boko Haram insurgency, many people were forced to abandon their properties and livelihood and flee. I fled to Yola, the state capital of Adamawa until the insurgents were defeated by the Nigerian Armed Forces before returning home. Unfortunately, the damage had been done by then with many of our belongings either stolen or destroyed.

On the Community Development Planning (CDP) session, the inclusiveness of the CDP process and the style of facilitation made it unique and impressed me a lot. I strongly believe it will bring about positive change in my community. I wish the government at all levels in Nigeria could adopt this process as a matter of policy, it will help curb misplaced priorities and tailor people-oriented decisions.

I urged the present and future generation to hold on to our cherished values of love unity and hard work, to take formal education seriously as an enduring legacy, to be law-abiding and to be responsible citizens. My profound gratitude to the European Union, the German Federal Ministry for Economic Cooperation and Development for taking an interest and providing resources to educate my people on sustainable development; GIZ for organizing the process and CPPLI the partnering Civil Society Organization (CSO) for facilitating the sessions. We welcome any organization or agency with the mandate to help our people particularly the less privileged and vulnerable in the community

ABOUT THIS PLAN

Mugulbu ward is part of Mubi North LGA. Mubi North LGA is one of the 7 Local Government Areas of Adamawa State that was affected by the Boko Haram insurgency in 2014. Apart from the destruction of physical infrastructures such as schools, water points, health centers etc. in the Local Government Area, people were killed and displaced and many others fled for safety. The physical and psychological trauma experienced during this time requires concerted efforts for the victims' full recovery.

Against this background, the Local Government and the traditional leaders of Mubi South LGA have put the reconstruction and long-term development based on the needs of the local population as their priority. With the support of the GIZ programme "Support to Strengthening Resilience in North-East Nigeria" (funded by the European Union and the German Federal Ministry for Economic Cooperation and Development), the Community Development Planning (CDP) process was implemented. The purpose was to bring together various community actors, vulnerable groups, women and men of different ages and socio-economic backgrounds together at ward level to plan for the development of their communities through a participatory bottom-up process.

The CDP process has provided the opportunity for community stakeholders to come together under one umbrella to discuss and analyze their livelihoods, problems, causes, strategies and potentials solutions. It is a process where members of a community are active participants in their problem identification, analysis of developmental issues affecting them and brainstorming on solutions to solve the problems. This is done while putting the peculiarity of their communities at the center of all the efforts.

While stakeholder sensitization, ward analysis and community mobilization played a crucial role in the CDP process, the Community Development Planning Session itself is the heart of the process. This 4-day session is akin to the village/town meetings where members of the community come together to discuss issues that affect their development and plan activities to overcome those development gaps. The major objectives of the CDP sessions are:

A MALE PARTICIPANT RAISES AN OBSERVATION IN PLENARY

- To provide an opportunity for different socio-economic groups to discuss and analyse their livelihoods, including problems, causes, strategies and potentials within the community that could help them solve these problems
- To build people's capacity to participate more actively in development issues affecting them as individuals and their community as a whole
- To create a platform, where the people can discuss with their political and traditional leaders
- To identify and prioritize the needs of the community

Participants of the CDP session were carefully selected cutting across all demographics and socio-economic groups within the ward including vulnerable groups such as IDP, persons living with disability and orphaned children.

The CDP session was facilitated by the Governance Component of GIZ's Resilience Programmeand their Civil Society Organisation (CSO) partners: Clear View Integrity Foundation (CVIF) and Grace & Hope Youth Foundation (GHYF), Child Protection and Peer Learning Initiative (CPPLI), Goggoji Zumunchi Development Initiative (GZDI), Zireenza Support

Foundation (ZSF) together with other members of the CDP team such as state/local government officials as well as traditional leaders who supported and guided the process.

The tangible results of the Mugulbu ward CDP process and especially the CDP session is this Ward Development Plan. This Plan and its content were validated by the representatives of the Mugulbu ward.

EXECUTIVE SUMMARY: KEY FINDINGS

The Community Development Planning (CDP) session took place from 9th – 12th September 2019 in Mugulbu Development Area, Mubi South Adamawa state. Participants were randomly selected from the various villages within the ward representing the entire community irrespective of their ethnicity, religion or educational background. In the course of the CDP session, we were able to define and explain who the stakeholders are in a development setting, their collective roles and responsibilities. We also identified our shared values like hospitality, unity, loyalty, obedience, self-reliance, non-discriminatory, non-tribal and hardworking. Our vision for Mugulbu ward includes; having good access roads, adequate electricity supply, clean pipe-borne water supply, massive enrolment of women especially girls into schools, standard hospital/medical care, availability of modern fertilizer and improved seeds at affordable prices, reliable GSM network services as well as functional schools with qualified teachers.

Mugulbu ward is blessed with natural, social, economic and human resources some of which we didn't know about until we came together as a community. Arable lands for farming, sands and stones for construction, Gold and other precious stones for the production of jewelry materials and decoration items. Animal rearing is practiced to generate income with a variety of fruits and vegetables cultivated during the dry and rainy season to fuel our economy.

Some of the problems and challenges that we face are insufficient drinking water, lack of drainage system, lack of good access road which results in accidents and vehicle breakdown, lack of disposable refuse point, high rate of armed robbery attacks, high rate of kidnapping, the conflict between farmers and herdsmen, forced/early marriage, high rate of drug abuse, high rate of rape cases, inadequate modern farming equipment and improved varieties, lack of grazing land for animals, lack of modern storage facilities for farm produce, lack of skills acquisition centres for women and youths, health facility with limited space and low capacity to handle antenatal care services, lack of qualified health personnel, lack of basic medical equipment such as scanning and X-ray machines in our PHC, lack of emergency vehicles, insufficient drug supply, lack of qualified teachers in primary schools as well as insufficient classrooms in our formal schools.

THIS IS OUR WARD*

Mugulbu is a ward under Mubi South Local Government Area of Adamawa State Nigeria. The demographic information seen below covers the various communities within the ward, names and details of the District Heads, Village Heads, ethnic groups and languages are spoken within the ward.

GEOGRAPHIC INFORMATION

Mugulbu ward is located in Mubi South LGA, Adamawa state. It shares a geographical boundary with Nduku and Lamorde ward of Mubi South LGA, Adamawa State.

DEMOGRAPHIC INFORMATION

Most of the people of Mugulbu ward are returnees of the host communities. Others come from Gwoza, Askira Uba of Borno state, Madagali and Michika LGAs of Adamawa state. Based on the ward analysis report, the IDPs population is declining because people a lot of them have returned to their original locations.

ECONOMIC INFORMATION

The major economic activities of the people of Mugulbu ward are crop farming which include Groundnut, Guinea corn, Beans, Maize Corn, and Rice. While others are into marketing business such as trading, building, driving, Okada riding and animal rearing.

Typically, the jobs that our men do are farming, tailoring, carpentry, mechanic work, bricklaying, driving, motorcycle (Okada) riding and civil service. While our women engage in cap making, selling of Akara, tailoring, teaching, crop farming, cake baking, rearing of animals and local trading. There is only one market where business activities take place and the main market days are Tuesday and Wednesday. The main source of income for most people in our communities is farming/livestock and other petty businesses. According to the ward analysis report, the average monthly income per household is between 1,000 – 5,000 Naira. Only 45% of the interviewees have additional source of income while others do not. Nevertheless, we are confident that the economy will improve.

OUR VALUES

Respect for traditional, political and religious leaders, the elderly especially from the youths, hospitality, communal labour, unity, obedience, self-reliance, honesty and hard work in addition to sharing gifts and love for our culture are some of our shared values we adhere to in the ward.

* The following information was collected through the ward analysis which is an integral part of the CDP process. The information gathered in this exercise helped to better understand the ward but does not make any claim to be accurate or complete.

THIS IS OUR DEVELOPMENT: PROBLEMS AND CAUSES, SOLUTIONS AND ACTIVITIES

To better understand our development needs, we collected, discussed and prioritised the problems in the ward that need our urgent attention. The tables below show the prioritization of problem sectors that came out of our internal voting process which was conducted first in different gender and age groups and then in the plenary of the CDP Session.

The problems identified were clustered in 7 major thematic sectors. These sectors are:

i. Water and Sanitation
ii. Economy
iii. Agriculture and Food Security
iv. Education
v. Security
vi. Health
vii. Social Protection

The tables below show the prioritization of our needs according to votes which were conducted first according to gender and age groups and then age in a plenary discussion.

A. TABLE SHOWING RESULTS OF VOTING BY AGE GRADES

	MALE VOTES BY AGE GRADES (YEARS)			FEMALE VOTES BY AGE GRADES (YEARS)

Following the prioritization of our problems and needs, we sat together and analysed the causes of these problems. Out of the causes, we were able to identify possible solutions to these problems and proposed activities, how to tackle them. Our recommendations address us as private community members, but also our leaders and political institutions.

In the tables below, you will find a summary of our discussions:

A FACILITATOR PROVIDES CLARIFICATIONS DURING THE MARKET PLACE EXERCISE

´Every participant got 3 stones and was free to distribute these stones on the identified problems within their respective sector in order to emphasize the participant's prioritization.
