OUR VISION

We envision Mujara ward growing into a modern city with good road network, telecommunication service, excellent healthcare system, adequate water supply, improved security system, a Local Government headquarter with offices of State and Federal Ministries, Departments and Agencies (MDAs). Our schools will be world-class providing up to tertiary education for its people who will eventually be fully engaged in gainful employment within and outside the country. We hope that soon, our communities will practice the modernized agricultural way of farming and serve as the food basket of Adamawa State.

MESSAGE FROM THE VILLAGE HEAD

**ARDO ABDULLAHI
BUBA**

I am Ardo Abdullahi Buba and it's with great pleasure. I want to implore the community to learn diligently as this will provide the capacity to apply the knowledge towards the development of Mujara ward. My profound gratitude to the European Union, the German Federal Ministry for Economic Cooperation and Development for taking an interest and providing resources to educate my people on sustainable development; GIZ for organizing the process and GHYF the partnering Civil Society Organization (CSO) for facilitating the sessions.

On behalf of the good people of Mujara ward, I would like to say that we believe that this process is a step in the right direction for our growth and development.

ABOUT THIS PLAN

Mujara ward is part of Mubi-South LGA. It is one of the 7 Local Government Areas of Adamawa State that was affected by the Boko Haram insurgency in 2014. Apart from the destruction of physical infrastructures such as schools, water points, health centers etc. in the Local Government Area, people were killed and displaced and many others fled to safety. The physical and psychological trauma experienced during this time requires concerted efforts for the victims' full recovery.

Against this background, the Local Government and the traditional leaders of Mubi South LGA have put the reconstruction and long-term development based on the needs of the local population as their priority. With the support of the GIZ programme "Support to Strengthening Resilience in North-East Nigeria" (funded by the European Union and the German Federal Ministry for Economic Cooperation and Development), the Community Development Planning (CDP) process was implemented. The purpose was to bring together various community actors, vulnerable groups, women and men of different ages and socio-economic backgrounds together at ward level to plan for the development of their communities through a participatory bottom-up process.

The CDP process has provided the opportunity for community stakeholders to come together under one umbrella to discuss and analyze their livelihoods, problems, causes, strategies and potentials solutions. It is a process where members of a community are active participants in their problem identification, analysis of developmental issues affecting them and brainstorming on solutions to solve the problems. This is done while putting the peculiarity of their communities at the center of all the efforts.

While stakeholder sensitization, ward analysis and community mobilization played a crucial role in the CDP process, the Community Development Planning Session itself is the heart of the process. This 4-day session is akin to the village/town meetings where members of the community come together to discuss issues that affect their development and plan activities to overcome those development gaps. The major objectives of the CDP sessions are:

A FEMALE PARTICIPANT MAKES A CONTRIBUTION IN PLENARY

- To provide an opportunity for different socio-economic groups to discuss and analyse their livelihoods, including problems, causes, strategies and potentials within the community that could help them solve these problems
- To build people's capacity to participate more actively in development issues affecting them as individuals and their community as a whole
- To create a platform, where the people can discuss with their political and traditional leaders
- To identify and prioritize the needs of the community

Participants of the CDP session were carefully selected cutting across all demographics and socio-economic groups within the ward including vulnerable groups such as IDP, persons living with disability and orphaned children.

The CDP session was facilitated by the Governance Component of GIZ's Resilience Programme and their Civil Society Organisation (CSO) partners: Clear View Integrity Foundation (CVIF) and Grace & Hope Youth Foundation (GHYF), Child Protection and Peer Learning Initiative (CPPLI), Goggoji Zumunchi Development Initiative (GZDI), Zireenza Support

Foundation (ZSF) together with other members of the CDP team such as state/local government officials as well as traditional leaders who supported and guided the process.

The tangible results of the Mujara ward CDP process and especially the CDP session is this Ward Development Plan. The Plan and its content were validated by the representatives of the Mujara ward.

EXECUTIVE SUMMARY: KEY FINDINGS

The Community Development Planning (CDP) session for Mujara ward was held from the 1st – 4th of July 2019. It exposed participants to the concept of Development, Planning, Development Planning, Participatory Development Planning, Community Stakeholders, Community Shared Values and Community Development Challenges.

The participants identified Traditional/Religious leaders, Women leaders, Farmers, Traders, Artisans, Students, Politicians, Civil servants, Security men amongst others as the stakeholders of the community. In the Course of the CDP sessions, participants were able to identify; Economic trees,

large population, rocks and hills, domestic animals, food and cash crops as the major resources in Mujara ward.

The community development challenges were identified according to the following sectors: Security, Health, Water and Sanitation, Economy, Education, Agriculture and Food Security and Social Protection. To properly supervise developmental project initiatives in our ward, we unanimously elected a Ward Projects Supervisory Committee comprising of determined elders, women and vibrant youths from our community.

MUGULBU WARD AT A GLANCE

- Mujara ward has 2 District Heads, 3 Village Head and 40 Ward Heads (Jauros)
- The following are our villages: Tantilla, Wadilli, Yewa, Buluma, Fiyel, Sahuda, Mujara, Mujara Fulani, Manawashi, Takalafiya, Madanya, Mujara South, Sabaka, Lira, Shimbi, Pukurwa, Yelwa, Gimulgwa, Payala, Kagiza, Mamurla, Gifara, Shalawa, Bariki, Bagale, Yewa Fulani, Gipalma, Yewa Hosere, Tsabisa'a, Makutna, Sahuda Fulani, Musuma, Kadaharanga, Nguba, Ngabda, Namtari, Kwariya and Sabon-Layi A and B
- The major ethnic groups in Mujara ward are Gude, Hausa and Fulani
- The major language spoken in Mujara ward is Gude. Other languages spoken are Hausa, Ffulde, Higgi, Marghi, Nzanyi, Daba and Matakam.

THIS IS OUR WARD*

Mujara ward is in Mubi South Local Government Area of Adamawa State, Nigeria. It shares a geographic boundary with Gude, Dirbishi, Cameroon Republic, Mubi - North and Duvu wards of Mubi South Local Government Area. Mujara ward is in a rocky terrain made up of stones and mountains with cool climatic weather. Our villages are mostly separated by streams and rivers. The climate and terrain have provided a good and fertile ground for agricultural and livestock farming. Mujara ward is characterized by a short dry season with high evaporation from February to April and a long rainy season from May to October. Harmattan or cool-season normally appears from late November to early February. Generally, the mean monthly temperature ranges from 23°C to 32°C.

GEOGRAPHIC INFORMATION

Mujara ward has a large population community with Gude and Fulani as the main ethnic groups. The major language of communication is Gude. In addition to Gude, Hausa and Fulfulde are widely spoken. Other languages with a relatively significant number of speakers /are Nzanyi, Marghi, Kilba, Higgi, Daba and Matakam.

Christianity and Islam are the two dominant religions widely practiced by the majority of our people, though some traditional religious practices are common among some of our community members.

Mujara ward community has a significant number of Internally Displaced Persons (IDPs). Most of the IDPs in our community are accommodated by willing community members. There are also some community members displaced previously by the Boko Haram Insurgency that returned to the community who are either being housed by family relations or willing community members because of the destruction to their homes by the insurgents.

ECONOMIC INFORMATION

The major occupation/livelihood activities of our people are farming and animal rearing. The cash and food crops that are widely cultivated here are Beans, Maize, Groundnut, Guinea corn, Millet, Rice, Bambara nuts, Onions, Potatoes, Sugarcane, Cassava, Okra, Watermelon, Garden egg, Cabbage and Cucumber. Animals commonly reared are Cattle, Goats, Sheep, and Chickens along with some fish farming.

Typically, the jobs that our men do are farming, animal rearing, manual labour, masonry, bricklaying, carpentry, tailoring, meat selling, firewood selling, petty trading, cap knitting, mat making and selling, charcoal selling, fruits selling, welding, block making, mechanical repairs, commercial driving, shoe mending, provision selling, teaching and civil service. While our women engage mostly in Akara selling, cap knitting, farming, Groundnut oil extraction, hairdressing, tailoring, housekeeping, pepper trading, cake making, animal husbandry, fish trading, pottery, soap making, calabash selling, beads making, teaching and civil service. Therefore, our main source of income comes from mainly farming, livestock rearing, petty businesses, trading, commercial driving, automobile businesses, and artisanship.

Mujara community members, though very industrious, earn averagely less than 50,000 Naira per month for joint household incomes except for few that are engaged in white-collar jobs. The major community-saving scheme is through local contributions locally known as Adashe.

Our community is densely populated, with a higher ratio of men to women which also reflects the level of community members' involvement in community decision making. The population of our community is largely between the age brackets of 24 - 59 years with

males as Heads of households. Most of the young men are married and polygamy is very common cases of polygamy. There is a relatively insignificant number of divorced or single unmarried women in our community. The few cases of widowed women in our community are as a result of the Insurgency and current kidnappings.

The major conflicts common in our community remain Insurgency, kidnapping and farmers-herders' clashes, though Insurgency cases have significantly reduced, kidnappings have increased in the community.

OUR VALUES

Our values include Respect for traditional, political and religious leaders, the elderly; hospitality, communal labour, honesty and hard work in addition to sharing gifts and love for our culture.

THIS IS OUR DEVELOPMENT: PROBLEMS AND CAUSES, SOLUTIONS AND ACTIVITIES

To better understand our development needs, we collected, discussed and prioritised the problems in the ward that need our urgent attention. The tables below show the prioritization of problem sectors that came out of our internal voting process which was conducted first in different gender and age groups and then in the plenary of the CDP Session.

The problems identified were clustered in 7 major thematic sectors. These sectors are:

- i. Water and Sanitation
- ii. Economy
- iii. Agriculture and Food Security
- iv. Education
- v. Security
- vi. Health
- vii. Social Protection

The tables below show the prioritization of our needs according to votes which were conducted first according to gender and age groups and then age in a plenary discussion.

A. TABLE SHOWING RESULTS OF VOTING BY AGE GRADES

Education	34	10.12	5th
Agriculture and Food Security	33	9.82	6th
Social Protection	15	4.46	7th

Following the prioritization of our problems and needs, we sat together and analysed the causes of these problems. Out of the causes, we were able to identify possible solutions to these problems and proposed activities, how to tackle them. Our recommendations address us as private community members, but also our leaders and political institutions.

In the tables below, you will find a summary of our discussions

*Every participant got 3 stones and was free to distribute these stones on the identified problems within their respective sector in order to emphasize the participant's prioritization.
